

# BILINGUAL AND BRILLIANT reasons

## WHY

In this article I'm going to tell you 5 reasons why in my opinion be bilingual is the best and that is your opportunity to choose to be bilingual. I love travelling and meeting new people and since I'm studying in a bilingual school it's easier for me.

1. You can travel more:

When you travel it's easier for you to talk with people that don't speak your language because almost everyone speaks English, so you can travel more.

2. It's easier to get a job:

To get a job I think it's better to speak more languages and almost every boss chooses people that speak and understand English or more languages.

3. My experience:

In primary we learned only partial words but not exactly how to speak English so I couldn't speak quickly or is I how to explain something I didn't know how and now I can speak much better and I can make sentences and express my opinion freely in English because I feel confident speaking it.

4. High school will be easier:

In high school (bachiller) will be easier for you because in ESO you learn a lot of vocabulary.

5. You learn more culture:

For example I have learned about Thanksgiving and I have never celebrated it before. You learn traditions too, like now, I know Halloween was born in USA.

• So being bilingual is the best although it's difficult at the beginning you improve a lot speaking English with your teacher's help.
